Teacher Message As the friendships in the classroom are growing we are revisiting everyday what it takes to be engaged in learning and doing our best to speak as much French in the classroom as possible.

School supplies in the classroom

Students house their writing tools in their desk and they have a bin for their extras. We use whiteboards everyday for math and word practice. We are working on keeping track of our whiteboard markers but they have been going missing. Pencils are also already becoming scarce for some. Ask your child if they are needing more whiteboard markers or pencils.

Class Community and Health & Safety

Bodies to self: the school rule is no hands on, this means our bodies respect the space of others. This can be especially difficult when students are good friends with classmates. We created a word cloud that describes how are class can be. If one of our statements are not being meant a reminder will be sent home for a conversation to be had about how we learn best in the classroom.

Jour du souvenir *Remembrance Day*

Friday we will be attending our schools Remembrance Day assembly. Students will each receive a poppy. Any poppy donations are greatly appreciated.
